

ARTIFICIAL LIGHT
Artificial lighting probably works the greatest injury to the eyes. Harmful rays from high power lamps most affect the delicate nerves and muscles. This has become pronounced among skilled mechanics who are working night shifts. To see better they unconsciously strain and overwork the eyes, which naturally become fatigued. When the vision becomes clouded or blurred, and you find you are unconsciously rubbing the eyes to temporarily remove irritation, consult Dr. L. H. KAHN, our optometrist—eyeglass specialist. He will tell you whether medical attention or glasses are needed.

Don't Gamble With Your Health

If You Have a Cold and Neglect It You Are Taking Chances of Pneumonia.

Got a cold and decided to let it wear off, have you? This neglect and taking chances with colds is responsible for more deaths than the whole list of diseases. It paves the way for all kinds of disease, particularly pneumonia. The cold settles down and attacks the lining of the lungs—then it is pneumonia. Many "cough syrups" and "balms" are dangerous. Their only effect is from opium and other nerve deadening drugs they contain. It is a temporary, stupefying effect, and the cold remains just the same and wears away the weakened body. It only disappears when its place is taken by a more serious disease like pneumonia. Take no chances. Begin today taking Father John's Medicine which has had more than sixty years of successful treating colds and coughs without using alcohol or any dangerous nerve-deadening drugs. It builds fighting strength to ward off disease.

THE GENUINE EDISON DICTATING MACHINE

The Ediphone

BUILT BY EDISON FOR BETTER LETTERS

"I think the best thing about The Ediphone System is the fact that they did not forget the stenographer and her comfort when perfecting it.

"The light and flexible Comfortubes, on the Transophone, weighing only a few ounces, make you almost forget them. I can work all day at my typewriter, transcribing Ediphone dictation and at the end of the day I don't know I've had the Comfortubes on.

"It sounds like a little thing, but any stenographer who has a lot of work to do knows that it's details like this that make you bless the man who thought some of your convenience and comfort."

Quoted from the statement of a stenographer with one of the thousands of Ediphone users listed by name and business in our book "STABILITY."
